**DOUGLAS FIRE DEPARTMENT AND NFPA  
ISSUES FIRE SAFETY TIPS FOR CHILDREN**

With cooler weather approaching and fun, fall activities taking place, the Douglas Fire Department would like to remind parents and children of some fire safety tips. Young children, preschool age and kindergartners, are more likely to start fires by playing with matches or lighters. Parents should educate young children because young children are naturally curious about fire. Young children who start fires by playing with matches and/or lighters are more likely to die in the fire. Young children are more likely to start fires inside the home, while teenagers are more likely to start a fire outside.

**FIRE SAFETY TIPS**

**It's that time of year to...**

- ✓ Check the operation of your smoke detectors, and change the batteries. Install additional detectors if needed.
- ✓ Inspect and ready your heating system. Empty the ashes, and clean the soot from your fireplace.
- ✓ Check the weather-stripping around doors and windows, and replace those that are worn.

**...and remember to set  
your clocks back one hour  
on November 4, 2018.**

**Fall Time Reminder...**
